Long-standing scientific research shows exploration and play are meaningful methods of learning. We know learning extends far

beyond the classroom.—it happens in our community, after school, and on weekends. Maine Discovery Museum's exhibits & programming, provide out-of-school learning opportunities that play a crucial role in reinforcing education for the whole family.

Maine Discovery Museum is a 501(c)(3), nonprofit, community-supported organization, your support will help us ensure that everyone in our community can access the educational and cultural resources unique to our Museum.

Programs of the MAINE DISCOVERY MUSEUM

Maine Discovery Museum (MDM) is critical in helping Mainers learn, especially in science, technology, engineering, and math (STEM). We have three floors of interactive exhibits and robust STEM programming within and outside the museum, and both paths introduce Mainers to the value and importance of discovery and exploration.

Membership

Purchasing a Maine Discovery Museum membership not only allows you to enjoy the Museum all year long with unlimited visits and exclusive benefits, it also provides funding to our programs and exhibits so the wonder of science and play is accessible to all.
